EXTREME SUFFERING

Additional Details of the Distress in Russia.

Extensive Cold Weather-Typhus Fever and Other Diseases Add to the Already Great Distress - Various Other News from Across the Oconn.

London, Feb. 13 .-- A dispatch to The Daily Chronicle from Penza, capital of the Russian government of that name, gives additional details of the horrible suffering among the peasants in that famine-stricken district. Birds, it appears, drop dead from the cold, and men are found frozen to death along the roads. Typhus and other fevers and diseases are slowly mowing down the inhabitants. There are 200 dead around Penza, and 18,000 people are being fed by charity.

A quantity of grain has arrived at the city of Penza, but, owing to the fact that nearly all the horses of the neighborhood have been killed for food, there are no means of distributing it into the

The Chronicle's correspondent says that matters are still worse in other districts, and that in Samara, Saratov, Charkvo, Kasama and Nijini-Novgorod the inhabitants are said to be dying by thonsands.

Blame the McKinley Bill.

VIENNA, Feb. 13.—Skilled mechanics and others are flocking to this capital from the Anstrian provinces and from Hnngary, hoping to find some help in their destitution. The refngees, most of whom are in absolute want, and many of whom have been without food for many days, attribute their miseries to the American McKinley law, which has resulted in throwing them out of work by crushing certain branches of Austrian industries which supplied the Austrian industries which supplied the American market. McKinley is spoken of by these poor people as an ogre who has devoured their happiness. The conditions have begun to alarm the Viennese authorities, as the city has a great deal of local destitution without being a Mecca for a starving multitude from all parts of the empire.

Britons Clamoring for Quarantine Against Canadian Cattle. MONTREAL, Feb. 13.-The Star publishes the following special dispatch from London: The agitation against live cattle imports is gaining dangerous STARVING BY THE THOUSANDS, strength. Following The Times, The Morning Post, which hitherto has been

most friendly to Canada, says: "In the presence of grave danger of a spread of the disease to British herds, the most obvious dictates of common sense say close the ports of England.

We are spending millions of pounds to suppress disease among home unimals, yet with inexplicable fatuity, we leave the doors open at ports. A closure of ports to live animals would make no difference to imports of dead meat nor

raise the price.
"Bell's Weekly Messenger, another general friend of Canada, indicates the seriousness of the present outbreak and urges the public to support Mr. Chaplin, if necessary, to stop all imports of live cattle. The situation is one of grave peril to Canadian trade, and the Canadian trade, and trade, and trade, and trade, and trade, and trade, and t dian government may perhaps strengthen the position by promptly announcing a rigid quarantine against Unised States cattle entering British Columbia as well as the rest of Canada.

A RAISED BILL.

Tom Johnson Gets Into Trouble at Day ton, O.

DAYTON, Feb. 18.-Thomas Johnson, who claims to hail from Richmond, Ind., was arrested late last night for having counterfeit money. Unfortunately his partner escaped. Johnson went to the Park saloon and calling for a glass of beer, threw down a \$20 bill to pay for it.
The barkeeper could not change the bill and went out after the chango.

Then he discovered that the bill was a \$5 bill. The figure 20, cut from a revenne stamp, was pasted over the figure 5, but no other attempt had been made to change the face of the bill. The work was very poor, but in the dark it passed light inspection. Johnson was arrested, and when searched at the station house two bills of a similar description were found on him.

Train Telescoped.

LANCASTER; O., Feb. 18.—Telephonic information has been received from Pleasantville, eight miles from this city, of a wreck on the Toledo and Ohio Central railroad at that point. An engine drawing a train of cars loaded with merchandise jumped the track near the station, instantly killing the engineer and tireman, whose names can not now be learned, and fatally injuring a brakeman. The train was telescoped, and the cars inextricably heaped together, forming one big mass of wreckage.

NEW YORK, Feb. 13.-R. G. Pun & Company's weekly review of trade says: The great condition is cal carriers. and the will excisioned and unprecedented transactions in the stock market have monopoliz I attention in Wall street. Outside of appreciative circles there is some doubt whether the effects would be beneficial. Astray apprehend that the price of coal may be advanced to manufacturing establishments and other consumers. On the other hand the consolidated companies will have no more power to control the price of coal than they have had through their combination, and the market continnes unusually dull, the nominal price being not often obtained.

For the first time in many months the exports of products from New York fell below those of the same week last year, but the shipments from other points continue very large. The production of pig iron is a out stationary. The stocks of charcoal iron are substantially unchanged, but stocks of coke iron are sensibly larger so that on the whole the consumption does not appear quite up to the enormous supply. No change ap-pears in the market for pig iron and rails are in small demand at the fixed price. Bar iron does not improve and the demand for plates is smaller than was expected. Larger sales of copper are reported at 10. 5 cents and a fair distribution of tin, while lead is a trifle lower.

Reports from other sities indicate a general improvement in trade. At Boston trade is on the whole satisfactory, in dry goods equal to last year's, the cotton mills are may and a steady increase appears in orders for woolens and shors. Sales of wood for the year are thus far 3,000,000 pounds less than last year's to the same date. Trade in dry goods is improving at Hartford, and at Bridge-port sales are larger than in previous years, though the hardware trade is slack. At Philadelphia the dry goods trade is quite encouraging, and business in groceries generally satisfactory, but very little is doing in wool, and other lines are quiet and without change. Prospects at Baltimore are much brighter, with declared improvement in leather,

At Chicago the volume of mercantile sales is greater than a year ago, and diminished receipts appear in cured meats only, a fair increase in lard, cheese and butter, a third in flour, corn, oats, barley and hides, 50 per cent. in wool, while receipts of rye are double last year's, and wheat and dressed beef four times last year's. Trade at Milwaukee is good. At St. Paul, prospects are brighter, and at Minneapolis business has increased, as also at Kansas City, while trade is fair for the season at Omaha and Denver. At St. Lonis it is also stronger, and there is much confidence as to the future, although the depression in the cotton regions is still felt. Better accounts also come from the south. At Louisville trade has improved; at Nashville it is very fair; at Memphis, light and improving, and at Montgomery, improv-

At New Orleans, business in all lines is only fair, but there is slight improvement in cotton and sugar is firm and active with light receipts. Nearly all southern points have an easier money market and more hopeful prospects.

Money is only too abundant and has been quoted this week at 2, 1 1-2 and 1 per cent.

The business failures during the past week number for the United States 235, and for Canada 41, a total of 270 as compared with totals of 319 last week and 297 the week previous to the last. For the corresponding week of last year the figures were 297, representing 262 failures in the United States and 37 for the Dominion of Canada.

Rear End Collision. ROCHESTER, N. Y., Feb. 13.—The westbound mail train on the New York Central ran into an Auburn local at the junction of the branch line at Brighton yesterday. The locomotive and two cars of the mail train were ditched. only person injured was Mrs. W. H. Cady, of New York, whose hand was cut by window glass. The other fifty passengers were merely shaken up a little. Both trains were going west and the mail train ran into the rear car of the Auburn train. The railroad people sny the snowstorm hid the semaphore from the view of the engineer.

As Aggravated Case of Cruelty Discovered in Cleveland.

CAEVELAND, Feb. 18 .- John Vidral, a Slav, was arrested Thursday morning on the charge of cruelty to minors, and fliendly revealed a case of contract labor slavery. The warrant was issued at the instance of Peter Miskush. The boy said that nine months ago Vidrat bought him of his father in the old country, promising to pay him \$16 a year. He was brought to Cleveland. and with several other boys was taken to 505 Broadway. They were made to sleep on the floor in dirt and filth, and were given two meals a day of black bread and coffee.

Early every morning they were started out with a load of tinware. If they did not bring enough money, he said Vidral beat them with a strap. Since Jun. 19 Peter has been in charge of Paul Seelig, of to Cumberland street, who discovered the lad's condition and took discovered the lad's condition and took him home with him. When arrested Vidral was found sleeping in his tinshop with nine others. Before Justice Poe Vidral pleaded gnilty, and was remanded for sentence. Two boys, Paul Cosiyar and Andrew Kroley, detained as witnesses, will probably be returned to Europe. The matter will also be laid before District Attorney Brissmada before District Attorney Brinsmade, who will probably begin a prosecution under the above contract law.

GRAF. ING CHARGED

In Connection with Cerlain Acts of the Miss'ssippl Legislature.

'JACKSON, Miss., Feb. 13.-Considerable excitement was cansed Thursday in the house by the introduction of a reso-Intion by Representative Glover to the effect that it having been rumored that money was used with some members of the legislature to get the penitentiary bill postponed for two years, the house appointed a committee to investigate the matter and see if there was any truth in the report. Several members surrounded Glover in a moment, urging his selection, which was finally done.

It is charged by members that undue

influence was used in having the plea for a peni entiary bill postponed for two years, and the object of the resolu tion was to see how much truth there was in the romor. It is likely that the resolution will come up again in a day or two in another shape.

WARNING TO HOUSE BURNERS. As Outlaw Band Hung Up by a Mob in Alabama.

TUSCALOOSA, Ala., Feb. 13.—The circunistances surrounding the robbery and fire at Dr. S. Robertson's storehouse, a few nights ago, led to the conclusion that the several recent fires at Sylvan, Ala., were the work of an out-law band. Citizens organized a searching party and succeeded in capturing the fiends, who were negroes. When brought before a justice they pleaded guilty of this last and the other crimes. for the night.

A lynching party, however, at a late honr succeeded in overpowering the guards, and taking the prisoners to a tree, hanged them after fastening on their backs for the edification of their neighbors, placards bearing the in-scriptions: "Warning to all house bnra-"Protection to our homes,"

SATURDAY, FEBRUARY 13, 1802

HARRISON, Nicholas, Bracken, Bobortson and Bath counties may form one of the Judicial circuits under the new Constitution. It is solidly Democratic, the majority being nearly three thousand.

A roll of fifty-one prominent professional and business men of Wheeling, W. Va., showed forty-nine for Cleveland and two for Hill. Cleveland seems to be as blg a favorite in West Virginia as in most other States.

Brown County's "tax inquisitor" has added \$160,000 to the assessment of that county, and he gives notice that he has a good many more fellows on the list. Tax-shirkers don't fare as well in Ohio as they do in Kentucky.

THE New York World refers to the approaching Democratic meeting in that State as "the freeze-out convention.", The World, hy the way, was once a staunch friend of Senator Hill, but refuses to sanction such tactics as he has adopted to secure the delegation from the Empire State to the National convention.

SENATOR VEST says: "Free coinage made an issue by the action of the Democrats in Congress, or by the National Democratic Convention, means division, and division means defeat," in the next National election, but some of the Democratic Congressmen seem determlned to drive the old ship on the rocks.

THE BULLETIN must be a welcome visitor at the office of some of our exchanges. The Manchester Signal this week appropriated eight news items from this paper with but one of them and editorials-with only one credited. These papers seem to know a good thing when they see it, and are not slow at all in "appropriating" it.

Tire Manchester Signal this week contained eight items from the BULLETIN with only one credited. The Cynthlana Times has "gone one better" and copied only a few-twenty-one in all, but not one of them probably credited. Of course, the Burnerin appreclates the compliment pald it, but it could do so more fully if it had only received some credit for the items taken from its columns. If these papers are depending on the editor of the Bullerin to edit them, they ought to Mrs. Parry, near Washington.

At a meeting of prominent New Jersey Democrats It was resolved to make tariff reform the issue in the coming Presidential election, and that unlimited free coinage of legal tender silver would bring distress and ruin to the country. They also pledged themselves to use all proper exertions to secure the nomination of "the candidate who by courage, candor and definite statement of principles, and in the opinion of the people has become the rightful and safe leader in such a movement, their choice being under all circumstances Grover Cleveland." You know right where the New Jersey Democrats stand in the present campaign.

Electricity to Replace Steam. [Chauncey Depew In New York Herald.]

"But what will the railroads and steamships of 100 years from now bemake it shorter and say twenty-five years from now?" I asked.

"I will make it shorter than twenty-years," said Mr. Depew. "In much less time than that steam as a motive power will have given way to another far greater one. That will be electricity. It is certain to be, and it will be within a very few years, judging by what has been done by electricity in the last sixteen years."

Pork Packing and Provisions.

[Cineinnail Price Current, February 11.] [Cineinnail Price Current, February 11.]
Packing operations have been considerably reduced the past week, returns showing a total of 305,000 hogs for the West, against 450,000 the preceding week, and 410,000 for corresponding period last year—making a total of 7,185,000 since November 1, against 7,195,000 a year ago. The Eastern movement of hogs has been well maintained, so that the reduction in the marketings has directly affected too supply for Western mannfacture. Under these conditions values of hogs have been stimulated irrespective of current prices for leading articles of product, which now represent a hasis of about \$4.40 for hogs at Chicago.

represent a hasis of about \$4.40 for hogs at Chicago.

In view of the outlook with reference to marketable supply of hogs for some weeks or months to come it is reasonable to calculate that the provision market must tend toward au equality with values of hogs rather thau adjustment otherwise. The tendency of the provision market during most of the week has been moderately toward higher values, and the close at Chicago shows a gain of 25c on pork, 10c per 100 lbs on lard and 17½ on short rib sides, for May delivery, compared with a week ago.

There is no special activity in the market, speculative interest being more or less held in abeyance under an apprehension of Congressional action adverse to operations in futures, it heing generally conceded that the passage of the measure now being arged would so complicate affairs as to lead to depression in values, were the proposed law to be enforced. The exportation movement of product was large for the week in both lard and meats.

AN OLD VALENTINE.

- My wife looked o'er a valent'ne, And did not know that I was near; She read it over line by line— I could not help but hear.
- What was it made my pulses stir, And lit the lights of days long dead? 'Twes one that I had sent to her The year before we wed.
- 'Twas full of young love's fondest terms,
 Without regard to rhyme or sense;
 Possession dulled and planted germs
 'Of mild ludifference.
- I listened to the words I heard,
 White shame surprised me with its dart;
 'Twas long sinco I had breathed a word
 Of love to that true heart.
- Then noiselessly I stepped behind lier chair, and heard a sob of pain, My heart cried out; "I have been blind i" And love awoke again.
- I drew her gently to my breast,
 I soothed her, kissed her, called her mine;
 And all the love once more confessed,
 Told in that valentine.

WASHINGTON, Leo. Id.-A resolution was adopted setting upart Saturday, of the president's message on the Chin or rearry is? question.

Favorable report was made by the committee on public lands on a bill to adjust swamp land grants, and to fix the limitation for filing claims.

Mr. Outhwaite, of Ohio, asked manimous consent to limit debate on the military academy appropriation bul to twenty minutes and to dispense with yea and nay call on the motion pending Thursday to limit delate to one minute.

Mr. Walker, of Massachusetis, objected and the roll was called on the inotion pending adjournment Thursday. for one minute debate. The motion was carried, 202 to 16.

The drainage appropriation of \$15.006 on metion of Mr. Holman, was strickenent, 108 to 57. The committee then rose and reported the bill to the house.

Mr. Bowers, of California, demande the yeas and nays on the amendment A Young Ludy's Life Cut Short by the providing electric light plant costing 19,540 for the cadet barracks. This amendment was retained, 156 to 72.

Mr. Walker, of Massachusetts, demanded the yeas and nays on several amendments, and failing in securing a wote in that manner, moved an adjournment of the house. He said he desired to put the Democrats on record on this bill. His several dilatory motions caused considerable laughter on the floor.

The bill was then passed. At 2 e'clock the honse proceeded to consider bills on the private calendar.

BARON HIRSCH IN DISGUISE. Why Two of His Agents Have Beer Discharged.

San Francisco, Feb. 18.-Jacob Danziger, a large wheat dealer of Berlin, who is now here, is anthority for a query story about Baron Hirsch. He says that Hirsch recently discovered that his agents in New York were not proper. managing his fund of \$10,000 per month devoted to Jewish immigrants arriving in New York. Danziger says:

"The baron learned that the commissioner he had appointed gave no help to immigrants, but pocketed most of the money set aside for this benevolent pur-pose. The baron decided to look up the truth of the charges by proceeding to New York himself. The better to get at bottom facts, he disguised himself as a poor Hebrew and took steerage passage across the Atlantic. I was on the same steamer with him, but, realizing that he must have had some important object to achieve. I did not recognize him ease and comfort follows the use of by word or look. When New York was Syrup of Figs, as it acts in harmony with reached, he went to the dingy pens of Castle Garden along with the remainder when costive or bilions. For sale in 50 of the Jewish exiles.

"Pretty soon the commissioners came druggists. down and the baron begged of one of them a little assistance. Assistance was brusquely refused and he was thrown aside by the very men who were handling his money. After observin, their haughty, unscrupulous behavior for a few days, the baron quietly and secretly had them removed from their positions and others appointed. He toi. me he intended to have them prosecuted before returning to Europe. He made the necessary preliminary arrangements to this end with the lawyers."

ALMOST BURIED ALIVE. Morrifying Experience of Mrs. Wilson Near Warnaw, Itis.

WARSAW, Feb. 13.-Mrs. Wilson, living twelve miles from this city, became suddenly ill last Saturday and to all appearances died. She was dressed for burial and arrangements for her funeral made. No physician was called. On Monday a neighbor was sent to Warsaw for a coffin, but get drunk and did not reach home nntil Tuesday morning. When the watchers began to place the supposed corpse in the coffin the woman threw np her arms and caught one of the attendants by both wrists. With difficulty her fingers were released. By the aid of a mirror respiration was detected, restoratives applied and in a few moments Mrs. Wilson was able to talk.

She is too weak to make much explanation of her experience, but the agonies she suffered while the preparations were being made for her bnrial were simply awful. It was with superhuman efforts that she was enabled to throw up her arms and clutch the wrists of the at-tendant. Mrs. Wilson will recover.

Once More Behind the Bars.

OXFORD, O., Feb. 18.—James Boyce, an iumate of the Ohio retreat, escaped from that institution yesterday and went to the depot. He secured a large piece of gas pipe and kept his pursuers at bay, maying that he would kill the first man that laid hands on him. When the 9:15 train arrived he immediately boarded the chair car, and, holding the door, made a desperate resistance from being taken. Marshal Flauigan and several deputies, after forcing the door open, rushed in and overpowered the man. He was taken from the train, tied and handcuffed, and placed behind the bars once more.

Conflicting Orders.

Massillon, O., Feb. 13.—A head-end collision occurred on the Fort Wayne road between the tenth section of train No. 76, eastbound, and the first section of No. 75, a westbound through freight, at North Lawrence. The canse was con-flicting orders to the conductors. Both engines and thirty-five cars wers wrecked, the debris being scattered over both tracks and the tracks being blocked for six hours. No one was hurt.

DIED OF FRIGHT.

Acts of Two Cost Miners. PITTSEURG, Feb. 13 .- Caroline J. Gardner. fifteen years of age, who resided with her mother at Federal station on the Pitisburg, Cincinnati, Chicago and St. Louis railroad died yesterday morning from fright caused by Thomas and James Skidmore, father and son, who it is believed, on last Saturday evening at-tempted to kidnap the young lady for immoral purposes.

Caroline went to the coal shed near the house for coal. The men attempted to seize her. She escaped, however, to the house, felling upon the floor in a dead faint. The men lingered about the caping on the windows and door of the lonely cottage. The coroner's jury held the Skidu re guilty of manslanghter. The men were arrested and brought to Pittsburg. Both are coal miners.

Financier's Funeral.

NEW YORK, Feb. 18.—The funeral ser vices over the body of the late John J. Knox, ex-comptroller of the currency, took place yesterday at St. Bartholo-mew's church, Forty-fourth street and Madison avenue. The church was crowded with prominent financiers and friends of the deceased. The burial service of the Epicopal church was read by the Rev. Dr. Greer, rector of the church, and there was a brief choral service. The body was taken to Washington for burial in Oak Hill cemetery.
